- 673 399 221

Professional developer, UX/UI expert, graphic designer, and engineer by vocation. With years of experience creating software solutions for Industry 4.0.

I am able to combine two seemingly opposite facets to deliver creative solutions in both design and technical development.

EXPERIENCE

From february 2022 **3 years**
to august 2025 **8 months**

From november 2024 **4 months**
to february 2025

Company specialized in Industry 4.0 with an international presence:

- Report Wizard: full-featured report editing tool
- Report viewer
- Library of visual components tailored to the company
- Dynamic filters editable directly from the app
- Scheduler for automatic email deliveries
- Other more general sections of the application

Personal website, developed with the following goals:

- Learn new technologies and skills
- Develop a project end-to-end
- Test and apply new ideas
